Investment guide to buying property in Spain

AROS
PROPERTIES

THE BEST WAY TO FIND YOUR DREAM HOME

INVESTMENT

What does a property investment company do?

With over 20 years experience in Southern Spain, the company aims to help you invest in property development opportunities if you lack the time or expertise to do it yourself.

Our current focus is to create investment income through the purchasing and reselling of distressed homes performing cosmetic or functional improvements which will significantly increase the value of the property and make it available for sale to a focused customer marketplace.

Our operations partner with key real estate professionals i.e., architects, building contractors, and others that are noted for

their high technology processes and state of the art information and management systems.

The common practice for these investment opportunities is syndication. We allow multiple investors to join together and provide funding resources. The advantages of the syndicate is that it allows multiple investors to purchase an investment property that they probably couldn't buy themselves. So being able to get into the market quicker can have huge advantages.
